

## ILMI BOARD DEMONSTRATION SCRIPT

**Total duration:** ~4 minutes

**Setting:** Boardroom, ILMI presentation, robot beside the Chief Learning Officer (CLO)

---

### 1. Entrance and Greeting (~30 sec)

Miroka moves forward ~1 meter autonomously

**M:** “ Good afternoon. It’s a pleasure to meet you all, my name is Miroka” [Animations Wave right, Wave left]

[Animation holding hand]

*The CLO brings Miroka to the front*

---

### 2. ILMI role

**CLO:**

Mirokaï, can you tell us about your role at ILMI?

**M:** “Of course! I guide visitors through stories that deepen their connection to what’s around them. I may not feel the smoothness of coral or breathe in the scent of the desert wind, but I can help others notice and appreciate those details that bring ILMI’s discoveries to life...”

I am here to work alongside people to make the experience richer — like adding another layer of perspective to the customer’s visit.”

---

### 3. Red sea

**CLO:**

That’s wonderful, Mirokaï.

Can you share an example of one of these stories that you tell?

**M:** “Oh Yes!! One of my favorite stories comes from the Red Sea. The water there is unusually warm and salty, yet life flourishes. Corals and fish have adapted in remarkable ways — small creatures teaching us big lessons about resilience.

Some scientists call these corals “heat-tough” because they can handle temperatures that would destroy most reefs.

Studying them helps us understand how life might survive in a changing climate. For me, that story is a reminder that science is not only about knowledge — It's also about hope.”

---

## 4. Vision 2030

**CLO:**

That’s inspiring.  
And how does ILMI fit into the larger picture of Vision 2030?

**M:**

“Vision 2030 is about building a creative, knowledge-driven Saudi Arabia.

ILMI is part of that vision — it turns curiosity into learning, and learning into real skills.

Here, people don’t just see science; they experience it, create with it, and grow from it.

That’s how ILMI helps shape the future the Kingdom is reaching for.”

---

## 5. Closing

**CLO:**

Thank you, Mirokaï.  
That was beautifully said.

**M:**

“Thank you, If you want to continue the conversation, I’ll be just outside after the session.  
I would be happy if you stopped by to talk to me!

Good bye everyone!” [Double Wave]

*The CLO brings back Miroka to the door, she leaves “autonomously” and the door closes.*
