Field Observation Report – Incidental Human–Robot Encounters

الوثيقة هي نموذج لتوثيق الملاحظات السريعة أثناء أو بعد تفاعل الناس مع الروبوت في موقع عام، مثل المعارض أو المنتديات، لدراسة سلوكهم وردود أفعالهم. كلمة incidental تعني عرضي، أي أن التفاعل يحدث بالصدفة وليس بتخطيط مسبق.

Observer and Session Information

Observer name:

Event / Location:

Date:

Observation time block: from _____ to _____

Robot mode: ☐ Autonomous ☐ Scripted (check both if applicable and explain what skills or scripts were used)

Crowd level: ☐ Low ☐ Medium ☐ High

Noise level: ☐ Low ☐ Medium ☐ High

Notable Incidents

Record 4–6 specific, memorable encounters (time, what happened, why notable). Example: "3:05 pm — two visitors joked with the robot and took selfies."

Typical Behaviors Observed

Describe 4–6 common behavior patterns you noticed:

Environmental or Accessibility Observations

Any barriers, confusion, or issues with space, visibility, or noise.

Reflections / Suggestions

• Did anything about the robot's behavior seem to help or hinder engagement?

• Any immediate ideas to improve next deployment?

Summary Counts

Please give rough estimates

Category	Count
Total people observed	
Looked at robot	
Stopped (no talk)	
Talked briefly (1–2 turns)	
Deep conversation (≥3 turns)	
Avoided / negative reactions	

Attachments

☐ Observation sheet (coded data)

☐ Photos or map of booth (if approved)
